## COURSE DESCRIPTIONS BY COURSE DISCIPLINE PREFIX

### AUM - AUTOMOTIVE MANAGEMENT

---

AUM-111	Ma a	A	O	-	S
P	None				
C	None				

This course will cover the principles and procedures involved in managing an automotive facility. Emphasis is placed on record maintenance, facility layout, technical service training, personnel management, parts management, and computer-based shop management systems. Upon completion, students should be able to demonstrate procedures used in the day-to-day operations of an automotive facility.(2007 FA)
